**IDENTIFICATION OF MANUFACTURING LOCATION ON PRODUCT LABELS:**

The following is an explanation of the carton label identification, which designates the plant the product was manufactured at, and the "Date Coding" used to identify the date the product was put into Finished Goods inventory.

It is the responsibility of the Department Supervisor to ensure that all labels used for product identification on cartons, bags, etc, comply with this procedure.

**MANUFACTURING FACILITY**

A.Y. McDonald Mfg. Co. - Dubuque, Iowa  
 A.Y.M. Inc. - Albia, Iowa  
 A.Y.M. Inc. - Tennessee

**LOCATION CODE**

001  
 061  
 051

**DATE CODING OF PRODUCT LABELS**

The following codes are used to identify the date the product was manufactured. The code appears immediately ahead of the manufacturing location code on all labels.

REF: Carton Label Code "EB001" Ref.: (E=May, B=2000 001=A.Y. McDonald Mfg. Co. - Dubuque, Iowa)

REF: January 1999 = AA      May 2005 = EG      December 2025 = MD

Note: Prior to the year 2000, we only used the letters "A" through "M" (Omitting "I") for the year. Starting with the year 2000, we use letters "A" through "Z" (Omitting "I" - "O" & "S"), after the last "year Letter" (Z) is used, start with the letter "A" again for the year "2031".

**PUMPS:**

Letters are used to identify the "Months", and Numbers are used to identify the "Years", on pump name tags and cartons labels. Pumps do not require the full four (4) digit year code, only the last two (2) digits (see Ref: below):

**"7605794" Seven digit number is finished good production order number.**

**"50-BV is Product Freight code and freight class.**
