E-Series DuraMAC<sup>™</sup> Booster Pumps Residential | Light Commercial | Irrigation

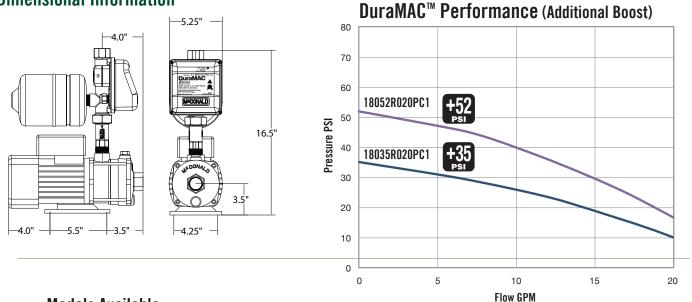

## **E-Series DuraMAC<sup>™</sup> - Residential Booster**

See Pumps & Accessorie Price List for Limited Warranty details Not all boosting applications require complicated boosting systems. The DuraMAC<sup>™</sup> Boosting system is simple, versatile, sophisticated, and reliable. With an easy set-up installation and a versatile control with three modes of operation, this pump is flexible enough to meet your

The 304 stainless steel version of the DuraMAC<sup>™</sup> Booster pump will meet the needs of boosting water pressure from Reverse Osmosis (RO) systems, low PH and other agressive water applications which would be corrosive to no-lead brass and metal pipes.

E-Series DuraMAC<sup>™</sup> Booster Systems are designed to shut off when no flow is detected. Pump total pressure boost should be added to current household system pressure to determine total system pressure when boosted. Note: It is not recommended to exceed 80 PSI total boosted household pressure.
